

HALF DAY SEMINAR

October 5, 2009

Confined Space Rescue- Are you prepared?

Many companies faced with preparing confined space rescue plans. Knowing the law and also industry standards are helpful preparing effective and executable rescue plans.

This course will focus on the equipment; techniques and pre-plans used for Confined Space Rescues and review the options you may have.

This course will especially be of interest to any individuals involved in preparing / approving Confined Space Permits and Confined Space Rescue Plans.

Feel free to bring actual examples of Confined Spaces on your site that you may be having a problem with and we can work through your options in class.
