### **Fire Code Compliance – An Overview of Fire Code Principles**

This program explains the fire protection principles of the 2006 Ontario Building Code – 2007 Ontario Fire Code, structure of the codes, and procedures for ensuring compliance.

*The program is designed for all personnel with responsibilities for fire protection, workplace safety, loss prevention and risk management, regulatory & legal compliance, facility management and technical & process personnel and their supervisors. We will be covering:*

- Owner responsibilities in the fire code
  - Zero Tolerance Enforcement & Consequences of non compliance
  - Documentation required to prove compliance
  - Documentation strategies
  - Principles behind the 2006 Ontario Building code (part 3) and the 2007 Ontario Fire Code
  - Prescriptive & Restrictive Compliance Options - very brief overview

#### ***The Fire Control System – insurance industry model crossed linked to relevant code issues***

- *Fire control by design*
- *Fire control by construction - fire separations etc*
- *Principles of hazard control & occupant protection*
- *Fire detection, alerting & reporting systems*
- *Principles behind Fire Suppression Requirements*
- *Emergency planning - need for it - overview of legal requirements*
- *Training Responsibilities*
- *Principles of Fire Protection Maintenance ( tests, checks, inspections,)*
- *Drills & Emergency Exercises*
- *Fire Department Response - what they Can or Can't do for you.*
- **Occupancy classes and fire protection requirements**
- **Organization & Formatting of the Ontario Fire Code**
- **Fire Safety Issues ( 2007 OFC B – part 2 industrial)**
- Fire separations, access & egress, emergency lighting, protection of building systems, fire plan requirements overview
- **Industrial Commercial Fire Safety – 2007 OFC – part 3 warehouses**
- General warehouse storage, industrial lift trucks, refueling, recharging

Brief overview of Principles behind parts 4, 5 6 of the code – to be dealt with in more detail in other courses.

**Pre-registration is a must –  
\$100.00 + GST for OIFPA Members - Non Members \$125.00 + GST  
Light lunch provided**

## ONTARIO INDUSTRIAL FIRE PROTECTION ASSOCIATION

Inc. 1981

193 James Street South, Hamilton, Ontario L8P 3A8 Tel. 905-527-0700 Fax 905-527-6254

*Due to numerous requests for more information on the Ontario Fire code this year the OIFPA is offering a series of Fire Code training workshops as modules, Each module is organized as a stand alone program – but is cross referenced to provide an overview of related issues.*

***The Topics will include***

- *Fire Code Compliance – An Overview of Fire Code Principles*
- *Fire Safety Plans – An Emergency Planning Workshop*
- *The Fire Code - Flammable Liquids – general concerns for most industries*
- *The Fire Code – flammable liquids – for the high hazard industries*
- *Fire Safety – the Fire Code & Hazardous Processes*
- *The Fire Code – Tests Checks & Inspections & Documentation*

***If there is sufficient interest we are prepared to develop additional industry specific programs – contact OIFPA for more information***
