

## **Luncheon Seminar - Thursday, May 13, 2010**

**Baxter Creek Golf Club**

1702 Cedar Valley Road, Fraserville (Peterborough)

# **2007 ONTARIO FIRE CODE “B” – PART 6**

## ***Tests Checks & Inspection of Fire Protection Equipment***

*This 3 hour workshop will cover the tests, checks, inspections and documentation requirements of the Ontario Fire Code as they apply to the life safety equipment of your industrial & commercial properties.*

*If you have responsibilities for the management or supervision of a facility or part of one – or have maintenance, safety, loss prevention, or security responsibilities this information will help you understand what has to be done to maintain compliance of life safety equipment whether it is serviced by site staff– or contracted service companies. It will also help you understand system problems.*

*In this program we shall review owner responsibilities for equipment and maintaining fire protection records (logbooks) – and provide samples of record keeping methods, and examine the code compliance requirements for testing, checking & maintaining the following systems:*

### **6.2 Fire Extinguishers**

- where needed
- service & maintenance
- tests checks & inspections
- installation & coverage
- selection for hazards
- documentation

### **6.3 Fire Alarm & Voice Communication Systems**

- tests, checks & inspections – daily weekly monthlies, etc
- site staff & contractor responsibilities
- sprinkler alarm tests, testing ancillary devices
- voice communication systems, - PA & Fire phones
- maintaining an Fire Alarm Communications & Control Center
- records & documentation requirements – alternate fire protection

### **6.4 – Standpipe & hose systems**

- maintenance & inspection
- testing & documentation

### **6.5 – Wet & Dry Sprinkler Systems**

- tests, checks, inspections & documentation
- shutdowns & alternate fire protection

### **6.6 – Fire Protection Water Supplies – tests checks inspection & records**
